

KAUSHER IMAM ALAM

+91-7372045902 | Mumbai, India | kausher01imam@gmail.com

OBJECTIVE

I am a **Full Stack Developer** with hands-on experience in building scalable web applications using **.NET Core Web API, ReactJS**, and **MS SQL Server**. I specialize in designing and developing end-to-end solutions that combine robust backend logic with dynamic, user-friendly frontends. My work focuses on delivering clean architecture, efficient data handling, and high-performance applications.

Skills - .NET Core , ReactJS, MS Sql Server, JavaScript, C#, Java, C++, DBMS

Education – Master of Computer Applications, Mumbai University(2024)

EXPERIENCE

Full Stack Developer **Oct 2024 – Present**, Prosares Solutions Pvt. Ltd. *Mumbai, India*

Technologies: .NET Core Web API, ReactJS, MS SQL Server, SharePoint

- Developing and maintaining web applications using **.NET Core Web API, ReactJS**, and **MS SQL Server**.
- Built modules for **CRM, medical records, and training management systems**.
- Created **reusable frontend components** and optimized **backend APIs** and **SQL procedures**.

PROJECTS

1. WOW – Way of Working (CRM System)

Technologies: .NET Core Web API, ReactJS, SQL Server, SharePoint

- Developed modules for Task Dashboard, KRA(Key Result Area), and Stages to Engagement/Project Status.
- Built frontend dashboards using ReactJS with tables, filters, and data visualizations.
- Created and optimized stored procedures and complex joins for backend logic.

2. CR3 – Training Score Management Tool

Technologies: .NET Core Web API, ReactJS, SQL Server

- Built master and reporting modules with dynamic and summary views.
- Implemented candidate assessment workflows with multi-stage approval process .
- Conducted UAT testing, managed deployments, and resolved post-production issues.

3. Afcons – Site Medical Records Management Application

Technologies: .NET Core Web API, ReactJS, SQL Server

- Developed master modules with full CRUD features, sorting, filtering, and pagination.
- Implemented common PDF report generation and dynamic reporting features.
- Managed UAT and VAPT feedback, ensuring high security and reliability.
- Participated in deployment and production support.
